

# *the* FURNACE ROOM INC.

On February 17, 2009 President Obama signed into law the “American Recovery & Reinvestment Act of 2009”. This Act gives homeowners tax incentives for qualified improvements to their home. By installing qualified high efficiency heating and cooling equipment at your primary residence you could receive up to a \$1500 tax credit.

PG&E is offering a \$300 rebate on new qualified high efficiency heating and cooling equipment. Just fill out the PG&E form, send it in and receive your rebate check in about 6 weeks.
